

Unit 101-84 North Bend Street,
Coquitlam, BC, V3K 6H1

IMPORTANT NOTICE TO RESIDENTS

Canadian Pest Control Ltd. will be treating for **PHARAOH ANTS** in your residence on:

People and pets do not need to vacate.

TO ENSURE SUCCESS, THE FOLLOWING PREPARATIONS MUST BE DONE PRIOR TO OUR ARRIVAL

- **Remove** enough items from all kitchen and bathroom cupboards to allow us to access the back of every cabinet. Empty all drawers.
- **Remove all electrical outlets and switch plate covers** in your unit. A dime will help with this if a screwdriver is not available.
- **Replace** all old or ripped shelf paper.
- **Clean, clean clean!** All kitchen and bathroom surfaces must be clean and grease free, especially those areas around the fridge, stove, microwave and toaster.
- **Reduce clutter!** Pharaoh ants feed on a huge variety of items and hide in cluttered areas, especially those near sources of heat and moisture.
- **Throw out garbage** daily and ensure dirty dishes are not left out overnight.
- **Fix dripping taps** or leaking pipes, and ensure splashed water does not remain in the kitchen or bathroom. The ants will survive for one month on water alone.

After our treatment is complete you may return your residence to normal.

PLEASE DO NOT clean up or remove bait placements, or use insecticide sprays or harsh cleaners, as these will render our treatment ineffective and cause the ants to spread.

You may still experience activity for up to two weeks after this treatment. Please let your building manager know if you still see activity after this time.

We will be applying a variety of Boric Acid 5% baits (PCP #22379), and/or Advance 360 (PCP# 27897) and/or Maxforce Ant System (PCP #22839).

Do not touch or ingest the bait.

In an emergency, contact POISON CONTROL at 604-682-5050

Our technicians are government certified, covered by WCB, insured, and bonded.
British Columbia Service License #150.

Thank you for your cooperation!
